

Dear Guest!

Eco - labelled accommodation

We are pleased that you have chosen our enterprise, which has been awarded with our national Eco-label. With your decision you show that you also attach importance to a reasonable way of dealing with our bases of life.

But to guarantee clean air, clear water, and healthy food your assistance is needed as well.

What you can do:

- **Close the windows** when the heating or the air conditioning system is on.
(if a window is open the air conditioning system does not work)
- **Turn off the light** when you leave the room.
(there is a main switch near the door to your room)
- **Save water:** While you're brushing your teeth or shaving turn off the water in between, press the WC water-saving button and inform us, if the water taps or the WC flush leak.
- **Towel** on the floor means: please change!
- Please separate your **waste** -
there is a separation bin in the business center on the first floor!
- Smoke only outside of the hotel.
- Preferably use **public means of transport** or **bicycles**.

Is there anything we have overlooked? Your ideas and proposals are welcome.

The Austrian Eco-label

We received this award from the Ministry for climate protection and environment, because:

- we use energy and water in a reasonable way,
- we avoid waste,
- we use renewable raw materials and environmentally-friendly products, and
- because also our staff members act accordingly.

The compliance with the criteria is regularly tested by independent authorities.
